This protects the confidentiality and sensitivity of information as well as confirms the identity of the student. Emails regarding course issues should NOT be sent to the Area Administrative Assistants. Instructors are required to provide evaluation feedback for at least 10% of the final grade to students prior to Week #9 in the term. Instructors may solicit feedback via an informal course review with students by Week #4 to allow time for modifications in curriculum delivery.

Course Deliverables

A. Class Participation & Contribution (20%)

It is our belief that highly interactive environments are the breeding grounds for excellence in stimulating idea generation, enhancing communication skills, improving analytical processes, fostering collaborative networks, testing assumptions, and having fun! This is also the time and place to develop the assertiveness and communication skills that are necessary for success in business. Consequently, we value and reward contribution. For our marketing class, contribution relates to:

- Being prepared for class discussion – demonstrate good knowledge of case content;
- Offering case analysis in a critical and constructive manner;
- Eager / willing to debate issues using logic and integrating knowledge of basic marketing concepts; Listen and react to comments made by other students
- Your ability to communicate clearly (i.e., quantity of dialogue is not the same as quality);
- Demonstrate initiative to bring new and relevant knowledge to case / class discussion

Interim participation marks will be available through the TA about half way through the course. Please take the initiative to review your progress with the TA. **NO marks are awarded for attendance.** Absence from class is a serious matter, since you obviously cannot participate if you are not there. If there are legitimate reasons for you to miss class, you need to provide documentation to the Academic Programs Office.

The key to high contribution grades is making a quality contribution to every class. Marks will be awarded on both quality and consistency. **Typical expectations are – at least TWO SOLID analytical comments per case discussion** (an example would be arguing SWOT with a correct ‘So What’). Regurgitation of facts in the case is worth only 30% of the marks.

B. Group Work

Groups will consist of five people (some exceptions will be made by instructor given class numbers). All members should be attending the same section. **Please complete the last page of this outline and submit a copy in class to the Instructor during the first class of Week 4 and also upload to Avenue2Learn as a scanned PDF by Friday September 22nd at 4:00 pm.**
80% of your mark in this course is teamwork so choose your fellow group members wisely. To encourage equal contribution, peer evaluation will be used to assess each member’s work. Groups are encouraged to set some ground rules and expectations early in the term and to have a short feedback session following the completion of each assignment so that individuals are made aware if their input is less than expected by their team. An interim peer evaluation form (posted on Avenue) is to be submitted in class on the day of final group process exercise and a final peer evaluation form will be submitted along with the completed Marketing Plan. THESE TWO EVALUATIONS NEED ONLY BE SUBMITTED IF THE DISTRIBUTION IS NOT EQUAL, AND MUST BE SIGNED BY ALL IN THE PRESENCE OF THE TA / INSTRUCTOR OR A CONFIRMATION SENT BY EACH MEMBER USING THEIR MCMASTER EMAIL ACCOUNT. (If you fail to do so, the professor will assign your evaluation marks as per his discretion based on information at his disposal.)

The result of this process is a true reflection of each group members’ contribution to the project. Some members (i.e., those that contribute the most to the process) may find that their overall grade will go up as a result of the peer evaluation. NOTE: GRADES GO UP BY NO MORE THAN TWO GRADE POINTS PER STUDENT IF THE ACHIEVED SCORE IS B OR LOWER; IF YOUR ACHIEVED SCORE IS B+ OR HIGHER THE RATINGS CAN ONLY ADD ONE GRADE POINT TO YOUR MARK IN THE COURSE. Others may find that their overall project grade will go down - NOTE: THE PEER EVALUATION PROCESS CAN IMPACT YOU NEGATIVELY WITH NO CAP ON THE GRADES YOU CAN DROP.

Past experience with groups has shown that most troubles arise because individuals do not respect the group process. The first group meeting should happen in the first two weeks. At this meeting, you might want to choose a coordinator who will facilitate the work. This is also a good time to set the parameters for group work such as: when and where the group will meet, attendance including punctuality, and preliminary assignment of tasks. You should also make a calendar of all “good” and “bad” times for the group (i.e., when group members have commitments to work, tests, major assignments, social commitments, holidays, etc.).

C. Hand-In Case (20%)

‘REEDS SUPERMARKETS DUE OCT 6TH BY 4PM – UPLOAD TO A2L AS A PDF DOCUMENT

Your analysis should be no more than ten pages plus any appendices that you choose to include. Appendices consist of information that supports the body of your report but is too detailed or voluminous to include in the body. This is where any financial analysis, segmentation grids, decision matrices should be housed. Appendices must be referenced in the body of the report. The format of the hand-in case is as follows:

<table>

Use “So what?” to argue implications for firm or the problem at hand • Use one sub-heading for Strengths, one for Weaknesses, One for Opportunities and One for Threats • You may also find that several characteristics can be grouped. For instance you might suggest that a firm is innovative because a. it launches new products every year; invests in new technologies and invests significantly in R &amp; D. Focus on SW or OT most important to problem and goals • Note: If you find yourself writing, “The company has the opportunity to …” you have identified an alternative not an opportunity. You need not make changes to each P in the mix. • Use of relevant marketing tools to support alternatives • Direct link between alternatives and analysis of current marketing situation / opportunities / threats. Discussion of pros and cons. • Identify one of the two strategies as the one you recommend • Discuss reasons for choosing this over the other alternative</td>

Marketing Report (25%): Due by Noon in DSB 203 on December 6th
Students must submit a marketing plan that is well organised, well written, accurate, and complete in its analysis. Clarity and conciseness are important. PLEASE SUBMIT TWO SPIRAL BOUND COPIES. WE WILL KEEP ONE AND MAIL THE SECOND COPY TO THE BUSINESS.

The marketing plan written in this course is expected to aid management in making a decision leading to the implementation of a particular strategy. The business owner / manager are familiar with the facts of the case and probably have an idea of the various alternatives that should be considered. Your marketing plan should not merely repeat existing knowledge. It should develop the information on opportunities and constraints in a manner that illustrates the depth of your understanding of the issues and reassure your reader that reasonable alternative strategies have been considered. It should convince the reader that the chosen solution is the appropriate one.

Providing the written plan is a very different task from the analysis that must precede it. In most instances, the same framework employed in your analysis cannot be used for your plan. The purpose of the framework for analysis was a problem solving structure while the purpose of your written plan is the communication of your results. Also, the marketing plan is written for a particular purpose and person. The style of presentation, language usage and organisation should be suitable for that purpose and person. Do not write the marketing plan to your instructor. Business writing differs from expositional, literary writing in that it is more action oriented and provides an account of an opinion or decision. Your marketing plan is not an essay or interpretative literary composition; its purpose is to inform and persuade. Students may find that they are required to assume a more reportorial, analytical, objective voice and style of writing.

A. DETAIL IS EXTREMELY IMPORTANT
B. REPORT TRENDS AND FORECASTS
C. LINK UP 4P’s TO SWOT, AND SOLUTIONS TO PROBLEMS USING SWOT
MARKETING PLAN STRUCTURE
The marketing plan has several sections. Detail is as follows.

TITLE PAGE
The first page is the title page and contains:

A. The name of the contact and organization including mailing address (centred on the page)
B. Team member names and student numbers,
C. Course and section number, and academic term
D. Instructor's name

LETTER OF COOPERATION
This letter must be obtained from the business, preferably on the company letterhead, and must confirm their willing participation in this process, and must acknowledge their awareness of the fact that the information they have shared will be used for case analysis in class and other academic purposes.

EXECUTIVE SUMMARY
This should include:

A. A concise statement of the problem.
B. A short summary of the major points arising from your analysis.
C. The major recommendations from your analysis including projected outcomes

Executive summaries should be a synthesis of the marketing plan, not just a point form version of the plan. The reader should be able to read this alone, and understand your analysis and decision. Thus, you cannot introduce new information into the Executive Summary. An Executive Summary is good practice for business marketing plans and the ability to summarise material is a skill that students must develop. The reader may find that the information contained in the summary section of the marketing plan is sufficient, or if he/she decides to read the complete marketing plan, find that the summary is preparation for the analysis that follows. The Executive Summary may be single-spaced. If the summary is longer than one page in length, it is too long.

COMPANY INTRODUCTION
The introduction prepares your reader for what is to follow. The introduction should begin with a background on the company, its owners and the organization structure etc. It should include the industry sector classification based on NAICS / SIC codes etc. It should be no longer than one page.

MARKETING AUDIT
Offers full detail on the 4P’s, market needs served, current target market and current positioning. Gives an insight into performance in different sectors, over time periods and highlights trends. ALL current marketing practices are detailed in this section but not critiqued.

PROBLEM IDENTIFICATION
A formal problem statement is useful in furnishing your reader with some insight into your marketing plan. Be specific. Do not define or state a problem in vague terms or alternative courses of action. USE FACTS.
Make sure that you clearly and explicitly outline the problem. Don't confuse symptoms with the underlying problem. Ask yourself “why?” after each problem statement that you generate; this should help in determining the underlying issue. For example, a weak problem statement would be “Market share is going down”. A better version will tell the reader the rate of decline, compare it to previous years and to industry trends. Importantly, there could be many reasons why market share is going down, and thus many possible solutions – most of which will not be effective unless you know why market share is going down. Thus declining market share is a symptom of an underlying problem and if you can correctly identify this problem half the battle is won. Do not state the problem as choosing from between a number of alternative strategies.

**INTERNAL / EXTERNAL ANALYSIS**

Marketing plans usually include some sort of “Situation Analysis” where external (e.g., industry, competition, customers, category, and environment) and internal analyses are performed. It is important that you don't merely regurgitate the facts of the case in this section. The reader is only concerned with strengths, weaknesses, opportunities and threats (SWOT analysis) that have implications for the problem or for the solution of the problem. You must comment on the implications of all of the strengths, weaknesses, opportunities and threats that you mention. The marketing plan reader shouldn't have to ask “So what?” after each point is raised.

This section should be the bulk of your report and must include an estimate / analysis on size of market, discuss industry trends, use secondary research to highlight demand forecasts (for example: online purchases by Canadians are expected to exceed $24 billion by 2006 …reference). **All opportunities and threats must be accounted for under the headings – Social / Cultural Factors, Demographic Trends, Economic and Business Conditions, Political, Legal and Technological Issues, Primary / Secondary Competition (identify the 4P’s for each of your major competitors; focus on in depth analysis on the real threats do not create a list of all possible competitors).** You must offer a sound perspective on the marketing practices and strengths/weaknesses of two major competitors.

REMEMBER A LOT OF SMALL BUSINESS OWNERS ARE WORKING WITH “GUT FEEL”. IT IS OUR RESPONSIBILITY TO EXPOSE THEM TO THE “FACTS” IN THE MARKETING ENVIRONMENT, FOR THEIR PRODUCT OR SERVICE. THEREFORE FOCUS ON INDENTIFYING TRENDS AND DEVELOPING FORECASTS. GRAPH YOUR INFORMATION – USE PICTURES AND SAVE ON WORDS.

**RESEARCH**

Discuss the primary and / or secondary research undertaken to develop an understanding of current or potential customer needs, values, preferences etc. Please share the questionnaire (if applicable), the purpose of the research, the findings, analysis of findings and key takeaways.

**OBJECTIVES**

This part of the marketing plan will include a list of specific and measurable business objectives (quantitative and/or qualitative) - and criteria by which to evaluate your alternative solutions. It is important to provide clear rationale for your goals.

**STRATEGY ALTERNATIVES & RECOMMENDATION**

This part of the marketing plan will include a discussion of two possible alternative solutions to the problem. When you discuss alternative solutions to the problem, keep in mind that your alternatives should solve the problems as stated at the beginning of your analysis. Make sure that you discuss
changes in the marketing mix commenting on each of the 4P’s, the target segment(s), positioning, outcomes and pros and cons of each alternative. Make sure you assess each alternative against your decision criteria. Remember, the alternatives must fit with the current resources of the organisation. They must also use the SWOT.

The marketing strategy you recommend must be justified. The logic of your selection of one alternative course of action over the others must be apparent. The decision must fit with the objectives, strategy and resources of the organisation. The decision must be feasible given the competitive environment. Discuss to whom are you selling and how will you distinguish your product from competition or talk about the competitive advantages your chosen strategy will provide. If you are planning on targeting multiple segments, how will you reconcile the fact that these segments may require different positioning approaches and/or different marketing mixes? Please comment on likely competitor reaction to your strategy.

IMPLEMENTATION AND CONTROLS
Include a guide for implementation. List specific action steps and include a time line. Outline the controls that will be used to monitor progress and allow higher management to review implementation results.

BUDGET
Provide documentation to support costing on each strategy for example – include printing quotes, advertising rates etc. Also include supporting notes / financial justification for the recommended strategy. Growth projections based on the implementation of the recommended strategy must be included - it shows the “bottom-line” of the decision. Include worst/probable/best case scenarios. Ensure that the time period in your implementation match the time considerations in your objectives.

CONCLUSION
The report should include a brief conclusion, summarizing how the solution best solves the problem identified at the beginning of the report.

REPORT FORMAT GUIDELINES
Please conform to the following:

A. Marketing plans should use readable fonts and numbered pages. Font size for the marketing plan body should not be smaller than 12 point. Left / right margins must be no smaller than 1 inch each.
B. Papers should be double-spaced and printed on one side of the paper only. The Executive Summary may be single-spaced.
C. The body of the report is not to exceed forty pages. Import all industry trend findings and reference graphs into the main body of the report. This page limit does not include the title page, table of contents, bibliography or other appropriate appendices. Marketing plans exceeding the 40-page limit will be penalised 10 percent per page for every page past the limit.
**ACADEMIC DISHONESTY**

You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: “Grade of F assigned for academic dishonesty”), and/or suspension or expulsion from the university.

It is your responsibility to understand what constitutes academic dishonesty. For information on the various types of academic dishonesty please refer to the *Academic Integrity Policy*, located at:

[www.mcmaster.ca/academicintegrity](http://www.mcmaster.ca/academicintegrity)

The following illustrates only three forms of academic dishonesty:

1. Plagiarism, e.g. the submission of work that is not one’s own or for which other credit has been obtained.
2. Improper collaboration in-group work.
3. Copying or using unauthorized aids in tests and examinations

**Use of Turnitin**

In this course we will be using a web-based service (Turnitin.com) to reveal plagiarism. Students will be expected to submit their work electronically to Turnitin.com and in hard copy so that it can be checked for academic dishonesty. Students who do not wish to submit their work to Turnitin.com must still submit a copy to the instructor. No penalty will be assigned to a student who does not submit work to Turnitin.com. All submitted work is subject to normal verification that standards of academic integrity have been upheld (e.g., on-line search, etc.). To see the Turnitin.com Policy, please go to:

[http://www.mcmaster.ca/academicintegrity/turnitin/students/](http://www.mcmaster.ca/academicintegrity/turnitin/students/)

**ONLINE COURSE COMPONENTS**

In this course we will be using Avenue2Learn. The available information is dependent on the technology used. Continuation in this course will be deemed consent to this disclosure.
If you have any questions or concerns about such disclosure, please discuss this with the course instructor.

Acknowledgement of Course Policies

Your enrolment in Commerce 3MC3 will be considered to be an implicit acknowledgement of the course policies outlined above, or of any other that may be announced during lecture and/or on A2L. It is your responsibility to read this course outline, to familiarize yourself with the course policies and to act accordingly.

Lack of awareness of the course policies cannot be invoked at any point during this course for failure to meet them. It is your responsibility to ask for clarification on any policies that you do not understand.

Note on Grading

The evaluation of all components in this course is to determine a grade is based on the quality of the submission. There is a bit of subjectivity in this evaluation as with most evaluations in social sciences; however, our experience indicates that there is a "standard" answer that defines the relevant concepts, makes a logical argument, and uses relevant examples where required. For problem solving, the “standard” answer involves identifying the issues, analyzing the facts and making relevant recommendations. Generally, this type of submission demonstrates basic understanding of course material and deserves a B. Submissions that demonstrate unique insights and provide a comprehensive understanding of the concepts/issues get rewarded accordingly with a B+, A-, A, A+.

In determining the final grades, please keep in mind that submissions are evaluated absolutely and relatively. Reports are evaluated absolutely according to the requirements. Reports are also evaluated relative to one another to form a ranking from the best to the least best.
