

Commerce 1BA3 - Organizational Behaviour Fall 2025 Course Outline

Human Resources and Management Area DeGroote School of Business McMaster University

COURSE OBJECTIVE & DESCRIPTION

The central objective of this course is to enrich your ability to understand and practice many of the “survival skills” necessary to succeed in modern organizations. The content of this course focuses on individuals and groups as the primary unit of analysis. You will learn (or learn in greater detail), topics such as personality; values; perception; motivation; communication; group dynamics; leadership; power & politics; conflict & stress management, and change management. The emphasis throughout the course is on the strategic management of organizations as well as on your own individual skill development, through the effective understanding and application of theory and related behavioural choices.

COURSE INFORMATION

Teaching Methods

The teaching methods in this course include three weekly classes, PowerPoint slides, and practical skill-building assignments. This multiplicity of methods allows students to:

1. Test their understanding of theories and concepts presented in the readings. More specifically to test their understanding of attitudes and behaviors of individuals and groups in organizations.
2. Use theories/concepts to analyze and develop solutions to actual problems at the individual, group/team and organizational levels.
3. Apply their knowledge directly through application-based activities built within the course. The teaching methods are designed to enhance their self-awareness and capacity for self-improvement; enable them to understand, interact with, and influence others; and equip them to serve in a variety of roles in organizations.

Course Expectations

In this course, much of your time will be spent in group interaction. This enables you to share ideas and to improve communication skills. Through interaction, you will discover for yourself the meaning of concepts, the subtleties inherent in everyday business situations, and the rationales for various solutions to managerial problems. To achieve effective interaction, I have three expectations:

1. **Attendance.** Because interaction is central, and also because your fellow group members will be relying on you for ideas, I expect you to attend every class. Valid reasons for absence include serious illness and family emergencies. Studying for exams and completing assignments are not valid reasons to miss class.
2. **Preparation.** You are expected to read assigned material in advance and to be fully prepared for class discussion. You may be called upon to begin the class and to contribute to discussion at any time. Unsupported opinion will not substitute for informed discussion. Adequate preparation is the only way to avoid embarrassment.
3. **Group work.** Groups will be created in the second week of classes. The group should address group problems or conflict in a timely fashion. Your TA will be available to assist groups who experience problems.

LEARNING OUTCOMES

Upon successful completion of this course, students will be able to complete the following key tasks:

- Increase your understanding of the theories and concepts related to individuals, groups, and interpersonal processes within the organizational context.
- Gain a broad intellectual understanding of the central concepts in judgment and decision making.
- Improve your analytical abilities with respect to problem identification, analysis, and the development of alternative solutions.
- Develop a toolkit of useful skills, strategies, and approaches drawn from OB.
- Develop confidence in your ability to make changes within yourself, relationships, teams and organizations.

COURSE EVALUATION & FORMAT

Missed tests/exams will receive a grade of zero unless the student has submitted and been approved for a Notification of Absence or MSAF. Your final grade will be calculated as follows:

EVALUATIONS	WEIGHT	DESCRIPTION
In-class Group Assignments	30%	3 x 10% each; Students will be working within groups to complete 3 written assignments, each consisting of 5 questions related to course content. All group members will receive the same grade for each assignment. -Assignment #1: Covers content from weeks 1-4 -Assignment #2: Covers content from weeks 5-9 -Assignment #3: Covers content from weeks 10-13
Midterm Exam	35%	Multiple Choice Questions
Final Exam	35%	Multiple Choice Questions (Non-cumulative)

LEARNING ACTIVITIES	DESCRIPTION	TOOL(S)
Live Lectures	3X 50min. live sessions per week; opportunity to elaborate on course core content, present challenges, engage discussion	PowerPoint slides posted weekly in Avenue
Readings/Videos	Tied to weekly topics	HBR articles & YouTube Videos will be referenced in class to support and illustrate concepts
Office Hours	2X 1 hour weekly with instructor	
In-class Group Assignments	3 X 10% each	Assignment questions on each of three assignments are designed to allow students to apply critical course concepts to practical business situations.

Grade Conversion

At the end of the course your overall percentage grade will be converted to your letter grade in accordance with the following conversion scheme:

LETTER GRADE	PERCENT	LETTER GRADE	PERCENT
A+	90-100	C+	67-69
A	85-89	C	63-66
A-	80-84	C-	60-62
B+	77-79	D+	57-59
B	73-76	D	53-56
B-	70-72	D-	50-52
		F	00-49

COURSE DELIVERABLES

In-Class Group Assignments and Learning Portfolio Submissions (30%)

The closed book in-class group assignments will occur during normally scheduled class time. You will be responsible for organizing your own group of five members; this established group of students will remain the same for all three assignments. Names of group members will need to be submitted by the end of the second week of classes. Specific dates for submission of group members' names as well as actual assignment dates are identified in the course outline. On the day of each in-class assignment, groups will be given five questions each worth 10 marks, usually drawn from the textbook and in-class discussions. Groups will be given 50 minutes to respond to the assigned questions in writing within a specific pink booklet. There will be 3 assignments each worth 10%. The group grade on each assignment will be shared equally by the group members.

On the day of each in-class assignment, each group member is also responsible for bringing with them a hard copy of an individual Learning Portfolio (LP) Reflection submission in the form of a completed template previously provided via Avenue 2 Learn by your professor. Throughout the term, your professor will be coaching you through the development of three skills (Time Management; Stress Management; Teamwork Management) – the LP Reflection submission is how students will document their progress on each skill's development.

- LP submission #1 (hard copy) on Time Management is due on the day of Assignment #1.
- LP submission #2 (hard copy) on Stress Management is due on the day of Assignment #2.
- LP submission #3 (hard copy) on Teamwork Management is due on day of Assignment #3.

Each student's LP Reflection submission is worth 2 marks (The hard-copy must be submitted with the in-class assignment). If all five students in a group complete and submit their hard copied reflections, the group will receive a maximum of 10 marks. If only four students complete and submit their hard copies, the group will receive a maximum of 8 marks. If three students complete and submit, the group will receive a maximum of 6 marks, and so on. In-class assignments and LPs will be graded and returned to students during class time on the following

week of the assignment. Each group will be permitted to replace their lowest grade on the five assignment questions with the higher grade on their group LP Reflection submission. In order for the assignment to qualify for grade replacement, there must be a solid attempt to answer each of the five assignment questions (each assignment question must result in a score of 5/10 or higher in order to be considered for grade replacement on the lowest scoring assignment question). Skipping a question or providing an obviously inadequate answer will nullify the grade replacement option.

Midterm Exam – Friday, October 24th from 7:00-9:00pm (35%)

The midterm exam will be composed of multiple-choice questions. More details will be provided closer to the exam.

Final Exam (35%)

The final exam will be **non-cumulative** and will be the same format as the midterm exam. More details will be provided as we get closer to the end of the semester.

COMMUNICATION AND FEEDBACK

Students who wish to correspond with instructors or TAs directly via email must send messages that originate from their official McMaster University email account. This protects the confidentiality and sensitivity of information as well as confirms the identity of the student. All students must receive feedback regarding their progress prior to the final date by which a student may cancel the course without failure by default.

- *For Level 1 and Level 2 courses, this feedback must equal a minimum of 20% of the final grade.*
- *For Level 3 courses and above, this feedback must equal a minimum of 10% of the final grade.*

Instructors may solicit feedback via an informal course review with students by Week #4 to allow time for modifications in curriculum delivery.

Students who have concerns about the course content, evaluation methods, or delivery should first reach out to the course instructor. If your concern remains unresolved after speaking with the instructor, you may then reach out to the relevant Area Chair for further consideration.

REQUESTING RELIEF FOR MISSED ACADEMIC WORK

In the event of an absence for medical or other reasons, students should review and follow the Academic Regulation in the Undergraduate Calendar [“Requests for Relief for Missed Academic Term Work”](#) and the link below;

<http://ug.degroote.mcmaster.ca/forms-and-resources/missed-course-work-policy/>

COURSE MODIFICATION

From time to time there may be a need to remove/add topics or to change the schedule or the delivery format. If these are necessary, you will be given as much advance notice as possible.

GENERATIVE AI

USE PROHIBITED

Students are not permitted to use generative AI in this course. In alignment with [McMaster academic integrity policy](#), it “shall be an offence knowingly to ... submit academic work for assessment that was purchased or acquired from another source”. This includes work created by generative AI tools. Also stated in the policy is the following, “Contract Cheating is the act of “outsourcing of student work to third parties” (Lancaster & Clarke, 2016, p. 639) with or without payment.” Using Generative AI tools is a form of contract cheating. Charges of academic dishonesty will be brought forward to the Office of Academic Integrity.

ACADEMIC INTEGRITY

You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity. **It is your responsibility to understand what constitutes academic dishonesty.**

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: “Grade of F assigned for academic dishonesty”), and/or suspension or expulsion from the university.

For information on the various types of academic dishonesty please refer to the [Academic Integrity Policy](https://secretariat.mcmaster.ca/university-policies-procedures-guidelines/), located at <https://secretariat.mcmaster.ca/university-policies-procedures-guidelines/>

The following illustrates only three forms of academic dishonesty:

- plagiarism, e.g. the submission of work that is not one’s own or for which other credit has been obtained.
- improper collaboration in group work.
- copying or using unauthorized aids in tests and examinations.

AUTHENTICITY/PLAGIARISM DETECTION

Some courses may use a web-based service (Turnitin.com) to reveal authenticity and ownership of student submitted work. For courses using such software, students will be expected to submit their work electronically either directly to Turnitin.com or via an online learning platform (e.g. A2L, etc.) using plagiarism detection (a service supported by Turnitin.com) so it can be checked for academic dishonesty.

Students who do not wish their work to be submitted through the plagiarism detection software must inform the Instructor before the assignment is due. No penalty will be assigned to a student who does not submit work to the plagiarism detection software.

All submitted work is subject to normal verification that standards of academic integrity have been upheld (e.g., on-line search, other software, etc.). For more details about McMaster's use of Turnitin.com please go to www.mcmaster.ca/academicintegrity.

CONDUCT EXPECTATIONS

As a McMaster student, you have the right to experience, and the responsibility to demonstrate, respectful and dignified interactions within all of our living, learning and working communities. These expectations are described in the [Code of Student Rights & Responsibilities](#) (the "Code"). All students share the responsibility of maintaining a positive environment for the academic and personal growth of all McMaster community members, **whether in person or online.**

It is essential that students be mindful of their interactions online, as the Code remains in effect in virtual learning environments. The Code applies to any interactions that adversely affect, disrupt, or interfere with reasonable participation in University activities. Student disruptions or behaviours that interfere with university functions on online platforms (e.g. use of Avenue 2 Learn, WebEx or Zoom for delivery), will be taken very seriously and will be investigated. Outcomes may include restriction or removal of the involved students' access to these platforms.

ACADEMIC ACCOMMODATION OF STUDENTS WITH DISABILITIES

Students with disabilities who require academic accommodation must contact [Student Accessibility Services](#) (SAS) at 905-525-9140 ext. 28652 or sas@mcmaster.ca to make arrangements with a Program Coordinator. For further information, consult McMaster University's [Academic Accommodation of Students with Disabilities](#) policy.

* Non-Commerce students must follow the Missed Course Work protocols outlined by their home faculty and Program Office.

ACADEMIC ACCOMMODATION FOR RELIGIOUS, INDIGENOUS OR SPIRITUAL OBSERVANCES (RISO)

Students requiring academic accommodation based on religious, indigenous or spiritual observances should follow the procedures set out in the [RISO](#) policy. Students should submit their request to their Faculty Office ***normally within 10 working days*** of the beginning of term in which they anticipate a need for accommodation or to the Registrar's Office prior to their examinations. Students should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests.

COPYRIGHT AND RECORDING

Students are advised that lectures, demonstrations, performances, and any other course material provided by an instructor include copyright protected works. The Copyright Act and copyright law protect every original literary, dramatic, musical and artistic work, **including lectures** by University instructors.

The recording of lectures, tutorials, or other methods of instruction may occur during a course. Recording may be done by either the instructor for the purpose of authorized distribution, or by a student for the purpose of personal study. Students should be aware that their voice and/or image may be recorded by others during the class. Please speak with the instructor if this is a concern for you.

EXTREME CIRCUMSTANCES

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, A2L and/or McMaster email

RESEARCH USING HUMAN SUBJECTS

All researchers conducting research that involves human participants, their records or their biological material are required to receive approval from one of McMaster's Research Ethics Boards before (a) they can recruit participants and (b) collect or access their data. Failure to comply with relevant policies is a research misconduct matter. Contact these boards for further information about your requirements and the application process.

McMaster Research Ethics Board (General board): <https://reo.mcmaster.ca/>

Hamilton Integrated Research Ethics Board (Medical board): <http://www.hireb.ca/>

ACKNOWLEDGEMENT OF COURSE POLICIES

Your enrolment in Commerce 1BA3 will be considered to be an implicit acknowledgement of the course policies outlined above, or of any other that may be announced during lecture and/or on A2L. **It is your responsibility to read this course outline, to familiarize yourself with the course policies and to act accordingly.**

Lack of awareness of the course policies **cannot be invoked** at any point during this course for failure to meet them. It is your responsibility to ask for clarification on any policies that you do not understand.
